Budgeting built for Local Government

Build and plan from one solution to manage all your finances.

VIP Budgeting & Analytics

Budgeting and data analysis is a pain. Hours, even days, are spent on research to come up with accurate numbers and forecasting. VIP Analytics provides you with budgeting ease, efficiency, and accuracy. Gain access to dashboards, personnel budgeting, custom reports, analytics, and forecasting tools that enable employees to make better and more informed decisions.

Budget Builder

Dashboards

Excel Designer

Single-Click Reporting

The VIP budgeting platform is a multifunctional, highly visual budgeting, forecasting, analysis, and reporting tool that provides real-time information to all managers and decision-makers. VIP Analytics improves your budgeting process through powerful workflows and forecasting tools.

"VIP Budgeting allows me to access data and reports quickly and in a way that I want to see it. The Excel Designer takes custom reporting to the next level. Providing department heads the ability to attach supporting documentation right into the budget has allowed us to truly automate the budget process. This is such a good administrative tool."
